PORTLAND, ME., Sept. 24.-At Rigby track to-day the world's pacing record was broken by John R. Gentry, the magnificent horse, pacing the fastest mile ever made in harness, and placing the world's record at only half a second over two minutes, or 2:00 1-2. Gentry was roundly applauded when he appeared on the track for his great trial of speed. He had been out on the track several times before and W. S. Andrews drove him on the track for the effort to break his record, the air was chilly, and a light northwesterly breeze blew up the home stretch. He record before starting was 2:01 I-2, which he made September 5th at Gien Falls, N. Y., in the second heat of a race, with

Andrews had driven Gentry two warming-up miles, and it was nearly sunset when he was ready to start for the event mile. A runner appeared with Gentry to pace him. After scoring twice Andrews came down to the wire to pace the fastest mile ever accomplished by a horse in harness. The crowd cheered as he ap-

harness. The crowd cheered as he ap-proached the starting point. "Go!" shouted Starter Culbertson, and hundreds of watches caught the pacer at the start. The runner snose was within two feet of Gentry's nose as they made the first turn. On the stretch Gentry was going gracefully and steadily, getting over the ground in great shape, and the runner had to work hard to keep The runner s'nose was within and the runner had to work hard to keep up. The first quarter was given by the judges as made in 2914. People began to wonder when the half mile was linished in 591-2 seconds, and to look for a two-minute pace. At this point the runner's driver was using the whip, and making a great effort, and succeeding in keeping at the wheel of Gentry's sulky. The third quarter was recied off in 20-24, thus making the time at the threquarters post 1.30 1-4. This was great going, and now came the last quarter and home stretch. As the horses turned into the home stretch and caught the ed into the home stretch and caught the shout and hurrah, and Andrews shouted encouragement to his horse. The run-ner's driver also urged his horse and used the whip unsparingly. All this nerved the pacer to a surreme effort, and it can be seen how noble an effort he made, for, with the wind in his face, he made the last quarter quicker than the third quarter, doing it in .301-4, and thus covering his mile in 2001-2. This was a substant and comprehensive.

Mr. Bryan prefaced his remarks by denying that the silverites had raised a sectional question. The restoration of himefallism was not only good for the West and South, but for the people of Connecticut also. "Sometimes," he said, "they had accused people who live in Connecticut of making wooden nutmegs as real nutmegs, but he is a man of honesty compared with the man who advocates a gold dollar and calls it an honest dollar." (Loud cheering followed this sentiment.)

Mr. Bryan asserted that you cannot have honest money and a gold standard at the same time, and a man in the crowd important the properties of the property of the properties of the p
